

# Which herbs make good companions?

Mixed herb cultures are a wonderful way to enrich the garden not only visually but also ecologically. By skilfully combining herbs in the bed, the planting partners can benefit from each other. Companion planting strengthens plant health by keeping pests away and attracting beneficial insects, as a herb bed is a feast for insects. In the following table you will find an overview of suitable bed partners in the herb bed:

	Anise	Basil	Borage	Caraway	Chamomile	Chervil	Chives	Common marigold	Common mugwort	Coriander	Curry plant	Dill	Fennel	Garlic	Hyssop	Lavender	Lemon verbena	Malva	Marjoram	Melissa	Mint	Oregano	Parsley	Rosmary	Sage	Savory	Tarragon	Thyme
